Dear Joan,

Here is the SPACES' newsletter I promised to send, along with some other material I thought you might be interested in. The timeline biography is still being worked on.

As I mentioned in our conversation SPACES would like to expand the information it has on John and Francis for its archive. Pictures of the site (we'd love to have one with you in front of your castle), deeds, letters from visitors, newspaper clippings, any history of John or Francis or the site would be of interest.

Since we are a non-profit organization I assume your gift to the "Medica archive" would be considered for a tax deduction. Proper credit would be given to the family or the family member. Items too precious to give up can be duplicated and returned. It would be a shame if only limited information is available for people interested in the work that John and Francis did.

If the site has to be destroyed I like your idea of trying to get individual pieces put up in another location. Please keep me apprised of what is happening and I will see if the plaque can go along with the pieces.

If SPACES can be of any help please let me know.

My best,

Seymour Rosen
Director
