they discussed the birthday/plaque dedication for John Medica - they came up with a list of 40 people - close or important to John - a number larger than was first thought of

the question came up about inviting John's wife's relatives (who tried to send John to a nursing home + might protest the will) to the party - not resolved

food was discussed and so was a cleanup prior to the event
Susan Richter has official permission from her board to be involved with the process of sewing the Medica site - they will do the mailing to the politicians for birthday messages
Susan is also trying to get a County Resolution for John's work
