Dear Susan,

Thankyou so much for your note and enclosure on John Medica. Carol & I went out at dusk on Mon. March 11 and shot 3 rolls of film and spoke to Marianne for quite awhile. I'd phoned John first, he heard me clearly on the phone much to my surprise, and said it was fine for me to come out anytime. Marianne said his deafness has to do with tension, sometimes he hears clearly.

Carol is fascinated and wants to photograph more. I asked her if she'd have the time to help with the historical designation, she seemed open and suggested that you get in touch with her. We are interested in putting together a show about him. Could we arrange a taping session (interview) before I leave (May 1), then Carol would have that to work with while I'm away.
