John Medica's Castles and Garden

"Trying to make it look better," John Medica spent twenty years transforming a barren hillside into a magical garden of plants and creative stone works. Castles are his greatest triumph. A native of Yugoslavia and self-taught, Medica created an oasis for people and animals to enjoy. This imaginative assemblage is one of California's remarkable 20th Century Folk Art Environments.

California Registered Historical Landmark No. 939

Plaque placed by the State Department of Parks and Recreation in cooperation with Saving and Preserving Arts and Cultural Environments, a non-profit and educational corporation, April 6, 1987.
